## United Nations Global Compact: Uniting Business LIVE

Uniting Business LIVE connects the high-level multi stakeholder dialogues of the **Private Sector Forum**, the grounded local knowledge and implementation strategies in the **Global Impact Forum**, and partnership and leadership examples of the **SDG Business Forum**, into **one inclusive, impactful and innovative all access global event**.

Over the course of the three days at the start of the high-level opening week of the UN General Assembly session, leading Chief Executives, Heads of State and Government, corporate sustainability experts and business leaders, plus heads of UN agencies and civil society organizations came together to take stock of the state of the world, address gaps in progress, drive business ambition on the SDGs and highlight cooperative and actionable solutions that are ready today. These themes ran throughout multi-stakeholder panels, live General Assembly presentations and CEO interventions, and encouraged a global cross-sector dialogue through interactive breakout-sessions and exposition booths.

This year UN Global Compact (UNGC) also hosted LIVE panel sessions and keynotes from our Local Network hubs around the world. UNGC broke the digital “fourth wall” by streaming a mix of virtual and LIVE stages, and hosted both virtual and in person networking sessions in select areas.

Global Compact Network, India (GCNI) joined UNGC in promoting its theme/initiative to Unite business for a better world. GCNI not only attended diverse relevant sessions but also shared its experience and learning with regard to unite business for a better world.
